What is QHHT ®

The Quantum Healing Hypnosis Technique (QHHT®) is a powerful method that allows individuals to gain access to their innermost self, which contains all the answers. This aspect is commonly referred to as the Higher Self, the Over Soul, or the Super Conscious. With QHHT®, clients can gain a comprehensive understanding of why things are the way they are, and ultimately transform themselves. My services focus on shifting perspectives to help you SEE yourself in an entirely new light. Sometimes, understanding where you've been is just what you need to move forward.

Getting to Know You Through the Interview: The Crucial First Step

Before we begin, it's essential that we get to know each other. We'll spend 60-90 minutes discussing the most important parts of your life so far. Our discussion will include topics such as why you booked a session, any physical symptoms you're experiencing, and your life story from childhood until now. We'll also touch on any significant relationships and why they stand out to you.

As I work with the subconscious, it's crucial for me to learn as much as I can about you to ask the right questions. Rest assured, I don't take many notes, and I'll release the connection between us once the session is over. Think of me as a trusted confidant- I'm here to listen and support you. Don't be afraid to share your story, as I've heard it all before.

Be aware the process takes four to five hours of your time from beginning to end and must be completed in the same day.

Be comfortable with talking about yourself during the interview.

Plan to come to Ballston Spa, NY; this session is only offered in person.

Plan on recording only the hypnosis portion of the session on your own device. (The interview should not be recorded.)

Nobody else is permitted in the session. Clients who show up with a “plus one” will be turned away or asked to reschedule. This is not optional.

To prepare:

- Read through the preparation document. (It will be provided when you book a session.)
- Come hydrated!
- Clear enough space on your phone or device to hold up to 2 hours of content.
- Dress comfortably.
- Plan on getting a meal or a substantial snack after the session.

Note: This technique depends on mental imagery to induce hypnosis; those who have aphantasia (the inability to SEE things in the mind's eye) may be challenged, but I do have some work-arounds we can try.
