

CRYSTAL - SOUND - ENERGY

Healing work is a process of soul evolution. Picture yourself in your ideal state. What stories need to be revisited or reimagined to help bring about this change?

Energy work is an excellent complement to other forms of treatment. It ensures that your energy system flows freely, allowing your body to move through any physical, mental, emotional, and spiritual blocks that may be present.

I specialize in crystal gemstone therapy, Reiki, Tuning Forks, and Esoteric Healing protocols. For advanced techniques, I offer light codes, activations, light linguistics, and Shamanic workings such as energetic cord removal or cutting. Every person is unique, and not everyone resonates with the same modality. Let me help nourish and comfort your soul with my services, served in flavors that speak the language of your spirit.

S.E.E. yourself whole; the possibilities are endless, limited only by your imagination.

Although I may use the tuning forks in your treatment, a fully immersive sound medicine session is a separate service.

Some treatments are not recommended for:

- People with medical, metal or electronic implants.
- People who are pregnant, nursing, or trying to conceive.

If any of these apply to you, I can shift your treatment plan.
